is a serious disease that affects our children. Duchenne is a rare disease but our community is strong and united. We are a global army, marching together to defeat Duchenne.

Fighting Duchenne together.

Improving standards of care. We promote education.

Accelerate research from the clinic to global access.

Collaborating as a world network to help individuals everywhere.

Time to: make the present better and build a happy future.

We count on you:

Help raise awareness.

Quality of life: even if our children are affected by Duchenne they have to have the same rights and opportunities.

They need access to good care / therapies / interventions.

Duchenne Awareness Day 7 Sept
